KEAN PRESENTED THE NIGHT OF THE ARTISTS

PLAY VIDEO

In the name of music, dance, art and inclusivity.

On the 16th of February 2023, at Escape Athens, Greece, we held with immense pleasure the last Multiplier Event related to CLOE project.

More than 60 people attend at the event, with guests and artists from Italy, Portugal and Greece.

CLOE wants to promote the artwork of young, professional and non-professional artists all over Europe and support them in the creation of a solid network. We have presented the result of the whole project, the Web-magazine, the Concept Street Musical and the Hybrid Business Model.

Thanks to the Web-magazine, the work of many artists has been advertised and their name is out there on the internet, giving them the possibility to create their own European network and making their contacts accessible to stakeholders.

With the Concept Street Musical, professional and non-professional dancers in Italy, Portugal and Greece collaborated in order to present the choreography and the whole dance in the streets.

With the Hybrid Business Model, we support the sustainability of our artists in the process of generating future job opportunities.

After CLOE project will end, we will keep supporting our artists with the tools created in the past 2 years, giving them the space and voice to be heard and known in the European context.

After the presentation, we left space for our artists to perform and we enjoyed their songs for the rest of the evening!

At this link you will find the whole video of the event: **THE FORUM THEATER OF CLOE**
